THE HOSPITAL FOR SICK CHILDREN is acknowledged as one of the foremost children's hospitals in the world. Since 1875, it has been providing specialized care for infants, toddlers, and all children up to 18 years of age. With an international reputation for treatment and research programs in all areas of children's health, the hospital treats some 340,000 patients each year.

The **A to Z** of Children's Health

A parent's guide from birth to 10 years

Most parents have access to medical and parenting advice at the click of a mouse — so why publish a book of medical advice for parents that deals with virtually all childhood symptoms? Because much of what is found on the web is not based on the latest scientific evidence or agreement among children's health experts.

This book is written by some of the top pediatricians at the Hospital for Sick Children, recognized internationally as one of the best children's hospitals in the world. Parents can consult it like a first aid guide in an emergency, or simply sample its pages on an as needed basis. Most importantly, it provides the helpful, practical, and trustworthy information that every parent needs.

The easy-to-read format will guide you through your questions about your child's health and provide practical tips and strategies that may help you avoid countless hours of waiting in a doctor's office or an emergency room.

Dr. Jeremy Friedman, MB.ChB, FRCPC, FAAP, is the Chief of Paediatric Medicine at the Hospital for Sick Children and a Professor of Paediatrics at the University of Toronto.

Dr. Natasha Saunders, MD, MSc, FRCPC, is a pediatrician at the Hospital for Sick Children.

Dr. Norman Saunders, MD, FRCPC, was a renowned and hugely respected general pediatrician with over 30 years' experience. He was also a staff pediatrician at the Hospital for Sick Children and an Associate Professor of Paediatrics at the University of Toronto.
