

Gravity Cakes!

Create 45 Amazing Cakes

For the ultimate in show-stopping desserts, look no further than these incredible cakes that seem to defy gravity. Don't worry: there's no need to buy all kinds of fancy tools and ingredients to make these masterpieces come to life. For most of the projects, the key to the spell-binding illusion is an inexpensive balloon stick. So you'd better get used to hearing "How did you do that?" and "That's amazing!" It was these very reactions that inspired Jakki and Francesca to share their creations with you.

JAKKI FRIEDMAN is a passionate and creative pastry chef who runs a successful baking business in Manchester, England. Over the last 2 years, Jakki has been specializing in gravity cakes for a huge number of clients and performing regular demonstrations for a growing number of people eager to learn her secrets.

FRANCESCA LIBRAE is currently working as an international reporter for Express Newspaper Group in New Orleans, Louisiana, where she covers a variety of international showbiz and hard news stories.
